Academic Structure Overview

The academic program will feature daily online (synchronous and asynchronous) instruction that focuses on developing language skills in speaking, reading, listening, grammar, and writing. Participants will also complete regular assignments outside of class that expand upon the activities covered in online classes.

Instruction will be twelve academic hours per week, with class sizes of one to four students depending on language level. Participants can expect at least two hours per day of live, synchronous instruction conducted Monday through Friday. Additional academic hours will be delivered in an asynchronous (recorded) format.

American Councils will administer pre- and post-program testing with an Oral Proficiency Interview (OPI) to measure participants' language gains.

Conversation Partners

To provide opportunities for informal target language practice and connections with locals, participants will be paired with conversation partners. Participants and their conversation partners will meet remotely for approximately two hours per week to provide additional contact hours in the target language throughout the semester.

Cultural Activities

American Councils will arrange virtual cultural activities and excursions to places of historical and cultural importance throughout the host country. The virtual activities and excursions will be conducted in the target language by local alumni and staff, and participants will be given the opportunity to ask questions as the virtual excursion is taking place. The guide will also share different aspects of local culture or traditions in order to increase cultural understanding on a local level.

Potential virtual activities and excursions include: virtual host family visits, virtual tours of city sights and local museums, cooking lessons, music and dance lessons, virtual holiday celebrations, discussion groups with local students.

Total Contact Hours

Combining the academic program, conversation partners, and virtual activities and excursions, participants will have a total of 120 contact hours in the target language.
